Subject: Letter of Commendation

Reference: Life Safety Survey of the ILEA Training Center
Bangkok, Thailand

It is with great pleasure that I write this letter of commendation for Mr. Ted Edelmann, PE, CFPS. Mr. Edelmann provided the Life Safety Survey of the newly constructed Department of State International Narcotics and Law Enforcement Bureau's (INL), International Law Enforcement Agency (ILEA) training facility in Bangkok, Thailand.

The INL recognizes that the Fire Protection and Life Safety services provided by Mr. Edelmann were accomplished within a constrained time period mandated by the opening ceremony for the facility. Mr. Edelmann performed a comprehensive survey of the building, prepared a detailed written report describing the level of life safety for the building, and provided recommendations, as necessary, to bring the building within the Department of State's Overseas Building Operations standards. His prompt, thorough and professional approach to this task exemplifies CETROM's standard of quality. The attention that Mr. Edelmann gave to this project was a very positive factor in the successful opening of the ILEA.

We have known and worked with each other for little more than one year, yet throughout this time the quality, effort, and commitment to excellent service CETROM has demonstrated has been absolutely consistent. For that I am very appreciative. I look forward to working with you and Mr. Edelmann again.

Sincerely,

A handwritten signature in black ink, appearing to read "James Q. Kohler", written over a horizontal line.

James Q. Kohler
Acting Executive Director
Department of State
Bureau of International Narcotics and
Law Enforcement Affairs
